**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAIL OFFICE ACTION**

1. This office action is in response to the communication filed on July 26, 2006.

***Restriction***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 16-30 and 3215, 39, 11-19 and 40, drawn to a running support system for a vehicle which includes a first objected detecting portion, a second object detecting portion, and a running support portion, classified in class 701, subclass 301.
  - II. Claim 31, drawn to a running support system for a vehicle which includes a control portion for performing one of the controls, classified in class 701, subclass 36.
3. The inventions are distinct, each from the other because the inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions. Group I, is directed to a running support system for a vehicle which includes a first objected detecting portion, a second object detecting portion, and a running support portion, wherein the control condition for running support control is changed on the basis of an evaluation; while Group II describes a running support system for a vehicle which includes a control portion for performing one of the follow-up running control, adaptive cruise control, and obstacle alarm control, and notification of an

operation limit of one of the follows-up running control and the adaptive cruise control before an obstacle alarm is generated by the obstacle alarm control.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (571) 272-6966. The examiner can normally be reached on Monday-Thursday from 6:30 AM-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (571) 272-6956.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

or faxed to the central fax: (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
